ASK YOUR BARTENDER ABOUT ADDITIONAL REGIONAL SELECTIONS.

The first evidence of true distillation comes from Babylonia and dates from the fourth millennium B.C. Specially shaped clay pots were used to extract small amounts of distilled alcohol through natural cooling for use in perfumes; however it is unlikely this device ever played a meaningful role in the history of the development of the still. By the third century A.D. there is evidence that alchemists in Alexandria, Egypt, used distillation to produce alcohol for sublimation and for coloring metal.
